1、 Introduction

MKS PAD is a new independent development, is an integrated model display, cloud prints, online slicing, remote monitoring and other multi-functional one of the 3D print display.

2、 Features advantages

- 2.1 7-inch full color capacitive screen, high resolution, touch sensitive and accurate;
- 2.2 Built-in model library, online print layer slices, modify the print layer slice parameters;
- 2.3 Support WIFI function, phone remote control, computer wireless control print;
- 2.4 Can print STL files and Gcode files directly;
- 2.5 Support camera, remote monitoring printing process;
- 2.6 Can load Gcode model preview, print progress graph display;
- 2.7 Support local storage files, USB drive files, SD card file printing;
- 2.8 Can send instructions, always check the motherboard feedback information;

3、 MKS Pad7 parameter

	Touch screen model: MKS Pad7	Microprocessor:	A31S
	Dimension: 184mmX123.7mm	Mounting hole size:	176mmX115mm
Touch	screen type: capacitive screen	Color touch screen:	7.0 inches
Operating system:	Android	RAM:	2G
File format:	STL , Gcode	WIFI function:	YES
Feature:	Continue after power off, fe interrupted, cell phone APP, (Preview, cloud print	eding Camera support : Gcode	YES
Interface:	SD card, USB drive	Remote control:	YES
Board wiring method:	USB type A, AUX-1	Machine structu support:	^{re} I3、XYZ、delta、kossel、corexy
Recommended	software: Cura、Simplify3d、Repetie	r-Host Firmware update	e: SD card upgrade
